

Dynamics of prices for milk (updated)

Milk prices continued to decline in May. Compared to the previous month prices for milk from agricultural enterprises fell by 4.7% to 2.85 UAH/kg. Over the same period milk from private households declined in price by 6.7% to 1.8 UAH/l. Regarding the prices for milk from the farms belonging to the Association of milk producers of Ukraine (AMP) they fell by another 6.8% and cost an average 3 UAH/kg.

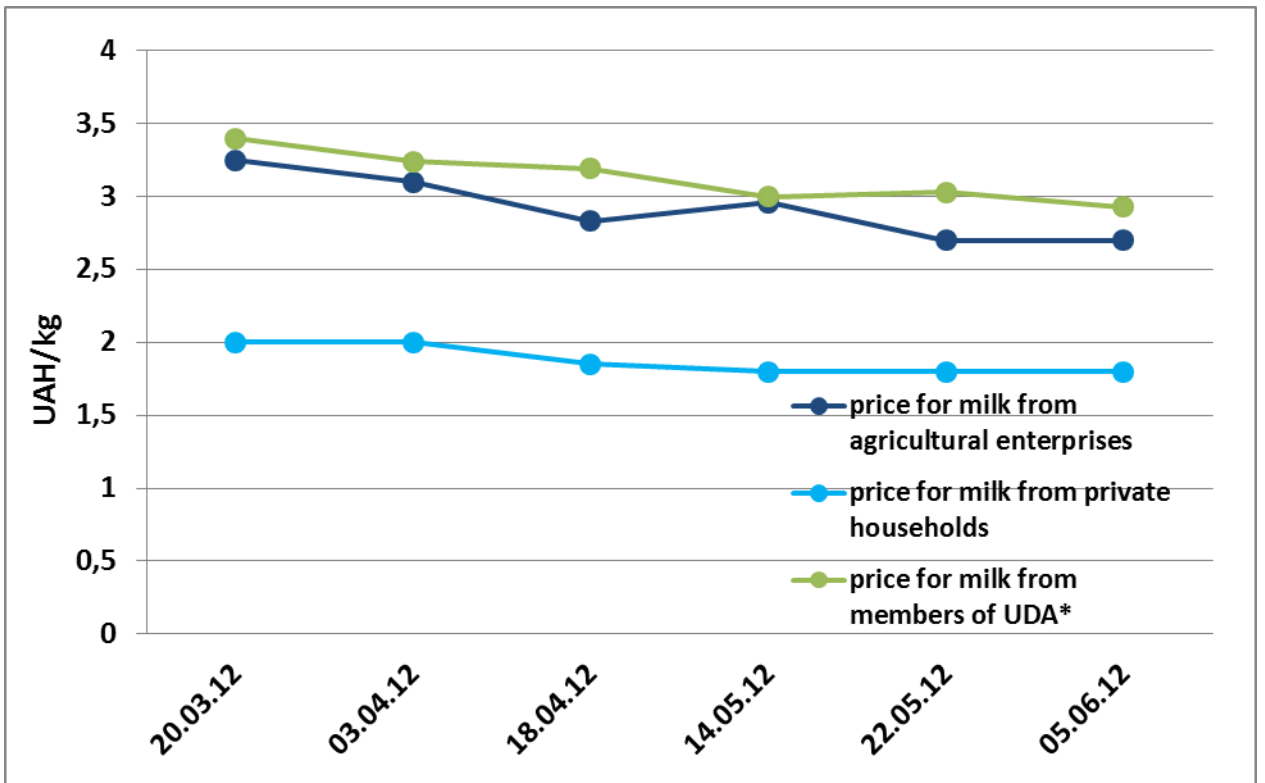

It should be noted that in May last year, purchase prices were slightly higher. In particular, milk from agricultural enterprises was offered at 2.95 UAH/kg, milk from private households cost about 2 UAH/l, and from AMP-farms — 3.3 UAH/kg.
