ANALYTICAL DEPARTMENT OF MILKUA.INFO

OCTOBER

Expected mark of 10 UAH per kilo of milk in October did not hold a position and significantly crossed this line. Main reason was atypical actions of some processors, which were aimed at returning lost raw milk at the expense of prices raising.

This was reported by analyst of Association of Milk Producers of Ukraine (AVM) Yana Muzychenko.

Accordingly, in the second part of October the average price for Extra Grade milk was 10.58 UAH/kg (including VAT), and the average monthly price was 10.23 UAH/kg.

The price for Higher Grade milk varies from 7.5 to 10 UAH/kg. The highest prices are typical for Central and Western regions.

The First Grade in October cost an average 7.50-9 UAH/kg. The maximum demand was in Western and Eastern regions.
