Milk prices monitoring

13.03.2023

ASSOCIATION OF DAIRY PRODUCERS

ANALYTICAL DEPARTMENT OF MILKUA.INFO

Prices for raw milk of all grades in Ukraine as of March 13 remained unchanged since the February 21 preliminary monitoring by the Association of Milk Producers (AMP). The reasons are the weakened demand for dairy products on foreign markets and in the middle of the country.

This is reported by the analyst of the Association of Milk Producers Georgii Kukhaleishvili.

As of March 13, the average purchase price of Extra Grade remained at 12.18 UAH/kg excluding VAT. The range of prices for Extra Grade in farms remained unchanged - from 10.84 to 12.80 UAH/kg.

The price of Higher Grade has also not changed over the past three weeks – 12.18 UAH/kg. In farms, the order of prices was from 10.00 to 12.10 UAH/kg.

Since January 2023, the average price for Grade I has remained unchanged - 11.67 UAH/kg. The minimum price in farms as of March 13 was 10.00 UAH/kg, and the maximum was 11.90 UAH/kg. The price range for this grade has remained unchanged since February 21.

The weighted average price of three grades remained at the level of 12.01 UAH/kg, the same as three weeks ago.
