The year ended with the weighted average price of three milk grades at the level 11.64 UAH/kg.

This is reported by Volodymyr Andriyets, an analyst of the Association of Milk Producers.

The cost of the extra grade averages UAH 12.15/kg, the highest — 11.7 UAH/kg, the first — 11.08 UAH/kg. The range of price fluctuations for medium and large batches of extra grade milk by region is recorded within the following limits: north and center — 11.7–12.4 UAH/kg, south — 11.7–12.4 UAH/kg, east — 11.6–12.4 UAH / kg, west — 11.6–12.3 UAH/kg.

For now, the price revision for the first half of February will not be marked by the start of the seasonal decline. Probably its beginning will be noticeable in the second half of February amid increasing supply of raw milk.
