Milk prices are moving up in small steps. At the moment, they have practically recovered to the indicators that were at the beginning of the year.

Over the month the average price added 20 kopecks to UAH 10.24/kg. At the same time, the extra grade milk increased in price by 21 kopecks to UAH 10.85/kg, the higher grade — by 22 kopecks to UAH 10.30/kg, the first — by 17 kopecks to UAH 9.56/kg.

Prices for medium and large batches of extra grade milk by regions fluctuate within the following limits: north and center — 10.6–11.1 UAH / kg, south and east — 10.5–11.0, west — 10.5–11.04 UAH / kg.

In the next two weeks further growth is expected, but at a slower pace — about 10 kopecks.
